Dealer notes

*** Located in Grand Island, NE - Zoom Classic Cars is proud to present this 1989 Jaguar XJS Convertible. The 1989 Jaguar XJS convertible is a luxurious and stylish grand tourer that exudes elegance, sophistication, and timeless charm. It represents the epitome of British automotive design and craftsmanship, combining sleek lines, refined details, and effortless performance in a package that is both iconic and distinctive. This particular Jaguar has a great deal of life left in it as it has been driven just over 36000 miles. The vehicle is powered by the original 5.3-liter 12-cylinder Jaguar motor and transfers the power to the rear wheels via a three-speed automatic transmission. The vehicle is in the original factory red. The convertible top folds down neatly and stores as it should behind the seat at the touch of a button. All gauges including speedometer, odometer, tachometer, gas gauge, temperature, oil pressure, and amperage function as expected. The interior is graced with the rich wood dash, clean carpet, and heated, power leather bucket seats. The vehicle is equipped with heat, AC, AM/FM CD player, upgraded speakers, and a customized display of travel statistics. It starts, runs and drives just as it should. It has been well cared for and maintained as evidenced in the photos, as well as documentation of work that has been done. In 2020 the front subframe mounts were replaced, a new AC compressor was installed, rear shocks installed, new front brake pads, rotors resurfaced, both front wheel bearings were replaced. Also, in 2020 the Pirelli P600 tires were installed on the vehicle, and they have just over 2000 miles on them since that time. In 2021 both valve cover gaskets, PCV valve, front crank seal with timing cover plug, all accessory belts, lower oil pan gasket, transmission pan gasket were all replaced. 2021 also saw the vehicle receiving alignment shims and receiving a four-wheel alignment. In 2022 a new water pump was installed, as well as the engine speed sensor, top dead center sensor, as well as a new power steering rack and pump. In 2023 a new radiator pressure cap was installed. An ignition module was replaced this year. When the ignition module was replaced the jaguar dealership was doing a routine inspection of the brakes and found them to be good but now the anti-lock light is on. Was told that is common with older cars, something got jiggled and turned the light on. The brakes are fine. The vehicle comes with a small tool kit, owner\'s manual, a clean Carfax report, a Nebraska title in the seller’s name and a Union Jack car cover. The 1989 Jaguar XJS convertible embodies the essence of luxury motoring, blending style, performance, and refinement in a package that is as captivating today as it was when it first hit the road.
