Dealer notes

2025 Tesla Model 3 Long Range – 35,554 Miles This Model 3 Long Range combines an all-electric powertrain, all wheel drive and the clean, screen-centered layout that defines Tesla ownership. An electric motor system works with a 1-speed automatic transmission. Regenerative electric operation and plug-in fast-charge capability support everyday use. Factory MSRP, option pricing and paint/interior names are omitted because Tesla does not provide a conventional VIN-specific Monroney label in this record. Verified equipment includes a glass roof, automatic climate control and a folding rear seat, power-folding heated exterior mirrors, LED lighting and automatic high beams. The cabin seats five and uses a large central display for primary vehicle controls. For a buyer seeking a streamlined electric vehicle with all wheel drive and practical passenger space, this Model 3 brings those priorities together. VIN: 5YJ3E1EB5SF942502. Current mileage: 35,554. Contact Auto 206 Inc. at (206) 456-2995 for availability, financing, transportation, trade-in assistance or to schedule a test drive. Driven by Trust. Focused on You.
