Dealer notes

There was a time when a Cadillac in the driveway meant something. It marked a milestone, rewarded years of hard work, and suggested its owner appreciated taking the long way home. This 2002 Cadillac Seville STS brings that feeling back, pairing unmistakable American elegance with the confident performance that made the Seville Touring Sedan special. Its 300-horsepower, 4.6-liter Northstar V8 delivers smooth, effortless power, while its distinctive proportions and understated styling recall an era before oversized grilles and dashboard screens competed for your attention. Inside, a welcoming leather-appointed cabin offers the comfort and sense of occasion you expect from a Cadillac. This was a sedan built to make an ordinary drive feel like a small reward. The accompanying CARFAX adds considerable appeal, showing three reported owners, 37 service history records, and no reported accidents or damage. Its second owner retained the car for nearly 18 years, and an extensive series of service visits at Costa Mesa GMC Cadillac documents years of attention. The most recent mileage reported to CARFAX was 27,931 miles in September 2026. Recent maintenance is substantial, too. An April 2026 service entry lists replacement of the front and rear brake pads and rotors, fuel pump, fuel filter, and several sensors, along with an oil and filter change and tire replacement. A note about the CARFAX mileage notation: The report currently displays a “potential odometer rollback” alert stemming from conflicting service mileage entries in late 2013 and early 2014. Supreme Motors has identified this discrepancy as a service mileage data-entry error and is working to have the report corrected. That correction remains pending, and we welcome buyers to review the report and mileage history with us. For those who remember when Cadillac represented a particularly American kind of success—or simply appreciate a beautifully proportioned V8 luxury sedan—this Seville STS offers a wonderful opportunity to revisit that feeling. Some cars provide transportation. A Cadillac like this brings back memories.
