Exterior colour: —
Interior colour: Tan
Body type: Sedan
Fuel economy: — city / — highway MPG
Dealer: Davis Auto Sales, Richmond, Virginia 23237
Dealer phone: (804) 271-0030

Dealer notes

This 1980 Chevrolet Silverado K20 is a square-headlight, long-bed Fleetside with an 8-foot bed and a California ownership history. This truck is exceptionally solid and remarkably rust-free. Finished in its original Dark Camel Metallic (V22 paint code), it is powered by a 5.7L 350 V8 with a 4-barrel carburetor and automatic transmission. Equipment includes air conditioning, power steering, power brakes, and factory cruise control, making this a very nicely optioned truck for its year. The two-tone center paint treatment has been added, and there are some imperfections where the white paint was applied. From the factory, this was a solid-color truck, and the original Dark Camel Metallic almost has the appearance of Cordova Brown. It also features the V22 chrome appearance package and an unusual, possibly dealer-added, aftermarket auxiliary fuel tank on the driver\'s side. The tank still has its original Travel Accessory manufacturer sticker attached, which is really neat to see, and it operates properly. We are currently adding a spray-in bedliner to this truck, but as you can see in the photos, the bed itself was in absolutely excellent condition. This truck has spent much of its life with a camper shell installed and features Warn locking hubs, aftermarket wheels, and what appear to be virtually brand-new all-terrain tires. Even the original bias-ply spare tire is still underneath the truck! All of the original racetrack exterior trim is in place. We are continuing the reconditioning process on this Squarebody. It has been freshly serviced and inspected, and all exterior lights are now working properly. The interior dome lights have also been repaired and upgraded with LED bulbs. The aftermarket stereo, which is a correct-style replacement, is working as well. Our next steps will include replacing the carpet, seat cover, and door pockets. We will continue working through the reconditioning process, with the asking price increasing accordingly as additional work is completed. Our current asking price reflects the truck in its present condition. We have intentionally left the undercarriage untouched and have not sprayed or covered anything up, unlike what you often see with older trucks. We want to show off just how well a truck of this age can survive when it has been kept in the right environment. We would be happy to apply an undercarriage protective coating at the purchasing customer\'s request. This truck would also make a great candidate for a lift kit, additional accessories, and other upgrades available through Davis Offroad. Whether you want to preserve it as a classic, build a lifted Squarebody, or take it in an entirely different direction, we would be happy to help. Feel free to reach out with questions, pricing inquiries, or modification ideas for this classic Squarebody truck! Price does not include $0 processing fee
