Dealer notes

2021 Ford F650 Super Duty Six-Door Custom Hauler Truck This King Ranch full-custom build is only four months old and has been meticulously finished, with a 100% flawless presentation inside, outside, top to bottom. This unit is show quality, and the fit and finish are second to none. It features American Force 24-inch custom-cut alloy wheels wrapped in 38-inch mud-terrain tires, dual rear wheels, and an absolute dream tow-rig setup. The truck is fitted with an 11-foot Western Hauler-style towing and storage bed, complete with a matching spare tire and wheel that is mounted but easily removable. There is plenty of space to carry motorcycles, a golf cart, an ATV, or other equipment while still leaving you fully capable of pulling your trailer. It is currently set up with a gooseneck ball but can be converted to a fifth-wheel setup. The bed also features LED lighting, dual custom-built fuel tanks with integrated storage boxes, a custom sidestep package, fully blacked-out dark-tinted windows, and color-matched grille, bumper, handles, and trim. The quality of this vehicle does not end there. It is fitted with Husky floor mats, three rows of seating with six passengers per row, providing belted seating for up to nine people, fold-up consoles at each seating position, a custom rear heat and A/C system, Bluetooth stereo, rear tagalong hitch, towing-style extendable mirrors, and a Kelderman air-ride rear suspension system. Everywhere you look, there are more custom touches. This vehicle would pass for a factory Ford build. Even the chassis of this truck has not been cut, and the axle has not been moved. This is a full, unmodified frame, unlike many trucks built similarly that have had the frame cut, modified, or hacked to accommodate the conversion. The build was completed by CabT, one of the highest-regarded builders in the industry, and this is approximately the seventh or eighth build project we have handled from them, with no complaints. The quality is truly impeccable. The truck has been fully ceramic-coated, paint correction has been completed, and approximately $15,000 worth of additional stereo equipment has been installed. The truck is absolutely spotless. Watch the detailed video on YouTube at Davis Drives for close-up views of the fit, finish, and custom details throughout this build. And best of all, there is no one- to two-year wait. This build is real, it is here, and it is available now. Call 804-357-9768 for direct information. Price does not include $0 processing fee
