Dealer notes

This is far from your average Corvette. Finished in a stunning Candy Apple Red, this highly modified 2001 Chevrolet Corvette is a serious performance machine reportedly producing over 1,000 horsepower. With LS3 power, nitrous, a full roll cage, and an unmistakable custom appearance, this Corvette was built to command attention. At the heart of this beast is a potent LS3 V8 backed by an extensive performance setup capable of delivering more than 1,000 horsepower. And when that isn\'t enough, the car is equipped with a Nitrous Outlet system--better known among enthusiasts as a little "giggle juice." The combination makes this one seriously formidable Corvette. The incredible performance is matched by an equally aggressive appearance. The Candy Apple Red exterior gives the C5 body a deep, brilliant finish that highlights its unmistakable curves and low-slung profile. This is the kind of Corvette that gets noticed before the engine is ever fired. Step inside and you\'ll find a custom black and red interior designed to complement the exterior while reinforcing the car\'s performance personality. A full roll cage dominates the cockpit and makes it immediately apparent that this is no ordinary street Corvette. An NRG Innovations steering wheel completes the driver-focused environment with another motorsports-inspired touch. Highlights 2001 Chevrolet Corvette Over 1,000 horsepower Performance-built LS3 V8 Nitrous Outlet system Stunning Candy Apple Red exterior Custom black and red interior Full roll cage NRG Innovations steering wheel Aggressive performance-oriented build Classic C5 Corvette styling with serious custom attitude This Corvette brings together everything a performance enthusiast wants: massive horsepower, LS power, nitrous, a full cage, custom styling, and an incredible street presence. With over 1,000 horsepower on tap, calling this Corvette a BEAST ON THE STREETS may be an understatement. Offered for sale. For additional information, call 336-736-8855.
