Dealer notes

2014 Mitsubishi Fuso Canter FE125 Duonic Utility Work Truck. This service body truck is one of the only ones we have ever seen like this freshly serviced and inspected and ready to put to work, heavy duty five item ladder/material rack on the roof a crossover tunnel box approximately 12 foot of internal cargo space in the utility box with lots of shelving internal and external, full lock system to protect the small outside doors, excellent running engine (Check engine light is on) , fleet maintained, interior as perfect as they come, pioneer cd player, dual rear wheels, rear hitch receiver and plug, brand brand new tires all the way around. This reasonably low-mileage diesel is very unique and a great all around tool body storage body unit. The only need which we want to make very clear is the transmission though it does shift has some weird tendencies. If you manual shift it seems to work ok, if you auto shift it shifts through the gears very fast and up to overdrive. We are not going into the diag any further fluid looks good and it does move and drive but with this issue. Sold as is feel free to have a mechanic check it out etc. We have reduced the price \$10,000 due to this issue so we are at a loss priced firm.
