Dealer notes

1994 Chevrolet Blazer 2-Door 4x4 SUV. We look at a lot of these units, but finding a rust-free one is nearly impossible these days, and this one is extremely solid. It was locally owned and purchased brand-new right here in Chester, Virginia. It features a clean interior, including the center console, which is not broken—“a rarity on these trucks. It has a floor-shift four-wheel-drive system, factory radio with equalizer, rear power hatch, fuel-injected 5.7L V8, rear trailer hitch, all-terrain tires, alloy wheels, and roof rack. We intentionally did not detail or spray the undercarriage because we didn't want anyone to think anything was being hidden. What you're seeing is the truck exactly as it arrived, in its raw, original condition. It even retains the factory spare tire in the back where it belongs. These make amazing winter, hunting, or extra vehicles, and they tow very well. The mileage on this one is also incredibly low compared to most examples you will find today. Overall, this is a great specimen of a rare 2-door Tahoe/Blazer from this generation and a very solid example that is getting harder and harder to find. Price does not include \$0 processing fee
