Dealer notes

The 2006 Ford Explorer Eddie Bauer 4.6L 4WD blends a comfortable, upscale cabin with confident four-wheel-drive capability. Its 4.6-liter V8 produces about 292 horsepower and 300 lb-ft of torque, paired with a six-speed automatic transmission, giving it strong performance for highway driving and towing. The Eddie Bauer trim adds leather seating, heated front seats, dual-zone climate control, and distinctive interior accents, while the Explorer's available third row offers extra flexibility for passengers. It's a capable, well-equipped SUV from its era, and its current condition and maintenance history are especially important when considering one today. Price does not include $249.00 processing fee
