Dealer notes

Built for the buyer who wants serious off-road presence without sacrificing everyday work-truck capability, this 2019 Ford F-150 XL Crew Cab 4WD is dressed to impress the moment it rolls off the lot. Finished with the STX Package and elevated by a professionally installed 6-inch suspension lift kit, this truck sits tall, commands attention, and delivers the aggressive stance that turns heads whether you're pulling into the job site or cruising downtown Fayetteville. Under the hood, this F-150 is powered by Ford's dependable and proven powertrain, engineered for the kind of towing, hauling, and go-anywhere confidence that the F-150 nameplate is famous for. The four-wheel-drive system ensures sure-footed traction across every terrain — from wet Arkansas backroads to muddy trail heads — while the Crew Cab configuration provides full four-door access and comfortable rear seating for the whole crew. Whether you're loading up the team for a workday or packing the family for a weekend adventure, the interior space does not disappoint. The STX Package elevates this XL above a base-model work truck, adding sleek exterior styling cues, fog lamps, and a sporty, street-ready attitude straight from the factory. But what truly sets this particular truck apart is the custom off-road build that takes it to the next level. The factory stance has been completely transformed with a 6-inch suspension lift kit, giving this F-150 the ground clearance and commanding ride height that off-road enthusiasts dream about. Filling out the wheel wells are a set of aggressive 20-inch Panther Off Road wheels, wrapped in brand new 35 x 12.50 tires that provide the rugged, oversized rubber needed to tackle rocks, ruts, and trails with confidence — and they look absolutely killer doing it. These tires are fresh, with full tread depth, meaning the next owner gets that new-rubber grip and peace of mind from day one. The exterior finish on this F-150 is clean and well-presented, complementing the bold lifted stance. Step inside and you'll find a functional, durable cabin designed for real-world use, with easy-clean surfaces, straightforward controls, and the practical layout that has made the F-150 America's best-selling truck for decades. SYNC technology keeps you connected on the go, and the Crew Cab's wide rear doors make entry and exit effortless for passengers or for loading gear behind the rear seat. This is not your average used truck. It is a turn-key, head-turning, lifted F-150 that combines the reliability and work-readiness of the F-150 platform with a custom off-road build that would cost thousands to replicate. With the STX Package, the 6-inch lift, the Panther Off Road wheels, and fresh 35-inch rubber, this truck is ready for its next chapter — whether that means back-country trails, weekend overlanding, or just standing out in any parking lot it pulls into.
