Dealer notes

Zoom Classic Cars presents this beautifully restored 1966 Chevrolet Corvette Coupe. The 1966 Chevrolet Corvette is widely regarded as one of the finest examples of the legendary C2 "Mid-Year" Corvette. With its timeless Sting Ray styling, aggressive stance, and one-year-only refinements, the '66 represents the perfect balance between the early split-window cars and the final 1967 models. Today, these cars remain among the most sought-after American sports cars ever produced, admired for their unmistakable styling, exhilarating driving experience, and enduring collectability. Offered here is a stunning example of the '66 Chevrolet Corvette Coupe that has been restored and meticulously maintained throughout its life. Finished in its factory-correct Rally Red with an absolutely gorgeous, like-new Red leather interior, this Corvette presents beautifully from every angle and has clearly benefited from careful ownership and continuous preservation. Always garage kept since new and currently stored in Massachusetts with a clean title in the owner's name, this is a Corvette that can confidently be shown, driven, and enjoyed. Power comes from a professionally installed Chevrolet Performance date-coded 327 cubic-inch V8 producing 300 horsepower. Installed approximately 20 years ago, the engine has been upgraded with a FiTech electronic fuel injection system, boosting HP to about 375, providing modern reliability, instant starts, smooth idle characteristics, and excellent drivability while maintaining the classic small-block personality. FI System control panel is mounted in the glove box. The engine is paired with Chevrolet's dependable 2-speed Power glide automatic transmission and a desirable 3.08 Posi traction rear axle, making this Corvette an outstanding highway cruiser that performs as beautifully as it looks. While this Corvette is no longer numbers matching, it represents exactly what many enthusiasts are searching for—a beautifully restored Mid-Year Corvette that can be driven confidently without the premium commanded by investment-grade NCRS examples. The addition of modern electronic fuel injection only enhances the ownership experience while preserving the spirit of the original car. Factory options make this Corvette especially desirable. It is equipped with factory air conditioning that still blows cold, power steering, power brakes, power windows, the desirable wood telescopic steering wheel, factory traffic hazard warning lamps—a rarely ordered option found on fewer than 25% of 1966 Corvettes—and an AM/FM radio with discreetly mounted speakers hidden behind the front kick panels to preserve the clean appearance of the interior. The exterior is simply outstanding. The Rally Red paint retains exceptional depth and gloss with only a few very minor imperfections that are difficult to find. Remarkably, there are no noticeable spider cracks in the fiberglass—something increasingly uncommon on Mid-Year Corvettes. The body panels are believed to be original, remain exceptionally straight, and exhibit excellent fit and alignment throughout. Chrome, stainless trim, emblems, and badging are all complete and present in outstanding condition. Adding to the Corvette's muscular appearance is a factory-style

1966 big-block hood, which was installed by a previous owner. The original small-block hood, already professionally painted to match the car, is included with the sale should the next owner wish to return the car to its original appearance. The car also features knock-off style wheels wrapped in brand-new American Classic radial tires, while side-mounted exhaust pipes provide the unmistakable look and sound every Corvette enthusiast appreciates. Beneath the car, the attention to detail continues. The undercarriage is exceptionally clean and rust-free, featuring a beautifully finished black chassis that reflects the meticulous quality of the restoration and decades of careful maintenance. Every indication suggests this Corvette has been preserved with pride rather than simply maintained. Whether displayed at local cruise nights, driven on weekend tours, or added to a serious collection, this Corvette delivers everything enthusiasts love about the Mid-Year generation: timeless styling, dependable V8 performance, outstanding road manners, and show-quality presentation. Finding a 1966 Corvette that combines beautiful cosmetics, desirable factory options, tasteful upgrades, and exceptional overall condition is becoming increasingly difficult. This is the type of Corvette that draws admiration wherever it goes and rewards its owner every time the garage door opens. This is a beautifully restored and thoughtfully upgraded Mid-Year Corvette that offers exceptional looks, reliable performance, and outstanding drivability. Whether you're an experienced Corvette enthusiast or looking for your first C2, this is a car you'll be proud to own, show, and drive for years to come. Stored in MA.
