Dealer notes

2022 Kubota RTV-X1140 Diesel Crew Cab 4x4 Utility Vehicle Yes, this unit is still basically new, with only 1.7 hours and approximately 4 miles. It was leftover inventory that was stored away and has seen virtually no use. Equipped with the heavy-duty IRS (Independent Rear Suspension) system, this RTV also features numerous upgrades, including a brush bar, winch-mount front bumper, and the convertible large fold-down cargo bed system. Power comes from a reliable Kubota diesel engine paired with the VHT-X variable hydrostatic transmission, along with power steering, high and low range gearing, a digital dash display, seat belts, and a rear tow hitch receiver. With only 4 miles and 1.7 hours, this is about as close to a new machine as you will find on the used market. It is a true beast of a utility vehicle and still has the original tag hanging from the steering wheel. Save thousands compared to buying new, and avoid additional setup charges and other unnecessary dealer fees. Price does not include \$0 processing fee
