Dealer notes

2013 Argo 750HDI amphibious all-terrain 8-wheeler with tracks. This unit has only 140 miles and has been owned by a corporate company since new, showing extremely low usage. We have operated this unit, and everything functions properly. It can run on eight air-filled wheels and tires, or the tracks can be easily installed for serious off-road capability. These machines are incredible in swamps and muddy areas—and yes, they do float! In the attached video, you'll see it traveling through a swamp with ease. It also features the upgraded roll cage and includes a 2017 Hudson model utility trailer. Price does not include \$0 processing fee
