### Dealer notes

This 1986 Jeep CJ-7 Blower-Powered Monster is a fully customized, no-expense-spared show vehicle that represents a true bucket-list build for its previous owner, with well over \$100,000 invested. At the heart of the Jeep is a BDS supercharger setup with polished dual four-barrel carburetors, custom headers, and a full custom exhaust system, all wrapped in a striking Hugger Orange finish with pearl-ghosted flame graphics. The build continues with Corbeau custom seating, a completely new fuel system from the tank to the engine with braided lines, custom doors, FOX shocks with remote reservoirs at all four corners on custom mounts, and a one-off ladder bar/traction bar system to manage the power. It rides on high-polish American Force wheels wrapped in new 40-inch Toyo tires, giving it an unmistakable stance and presence. While photos barely capture the impact of this Jeep, it is a turnkey showpiece that is fully operational and drivable; however, due to its short wheelbase and extreme power and acceleration, it demands respect behind the wheel.
