Dealer notes

This 1979 Chevrolet K10 Short Bed Squarebody has undergone a complete frame-off restoration and has since been transformed into an incredible lifted monster truck! Sitting on an enormous 15-inch lift with massive 44-inch Super Swamper tires mounted on 16-inch-wide custom DOR wheels, this truck has an unmistakable stance and presence. The suspension and steering upgrades include crossover steering, a track bar system, dual Fox shocks, dual steering stabilizers, chrome differential covers, and properly functioning front and rear driveshafts. The truck also features brand-new power-folding retractable running boards, bucket seats with a center console, and an old-school Pioneer period-correct stereo and equalizer. It has only 156 miles since completion! Although titled as a 1979, this truck has been upgraded with the 1980 square-headlight grille and headlight assembly, giving it an ultra-rare appearance and an incredible combination of classic Squarebody styling. Finished in Cordova Brown over Cream, it features the highly desirable racetrack exterior trim, custom exhaust, Blazer-style rear bumper, and spray-in bedliner. Under the hood is a great-sounding small-block V8 with a performance camshaft. Even the power windows and door locks are properly operational, along with the classic scrolling-style door panels that give these trucks so much character. The proportions and stance of this short, stocky K10 absolutely hit it out of the park! When you consider the cost of the suspension upgrades, wheels, tires, and accessories, combined with the expense of a proper frame-off restoration in today\'s market, this truck quickly becomes an incredible value. Not to mention the years of work, downtime, and waiting you\'ve already saved by purchasing a completed build. This is an impressive, turn-key Squarebody that is ready to enjoy! Price does not include $0 processing fee
