### Dealer notes

STATE CERTIFIED REBUILT TITLE – 2022 Dodge Challenger R/T Scat Pack Widebody – 29,646 Miles – Arizona Vehicle – 6.4L HEMI V8 – Frostbite This 2022 Dodge Challenger R/T Scat Pack Widebody RWD combines unmistakable American muscle with one of the most desirable factory configurations offered on the Challenger. Finished in stunning Frostbite over a distinctive Caramel and Black interior, this Widebody has only 29,646 miles and spent its previous life in Arizona, giving it the added benefit of a dry-climate, rust-free history. At the heart of the car is the legendary 6.4L 392 HEMI V8, producing approximately 485 horsepower and 475 lb-ft of torque, paired with the 8-speed TorqueFlite automatic transmission. Beyond the performance, this example is loaded with the Plus Package, Carbon/Suede Interior Package, and Harman Kardon Audio Group. Vehicle History & Condition This Challenger carries a State Certified Rebuilt Title following a light left-front impact. The previous damage was limited primarily to the left-front wheel, fender, and bumper area. Most importantly: NO Structural Damage NO Airbag Deployment Light Left-Front Damage Repaired, Inspected & State Certified Arizona Vehicle Rust-Free History Its Arizona background is especially desirable for Midwest buyers looking to avoid the corrosion commonly associated with vehicles that have spent years exposed to northern winters and road salt. Why This Challenger Stands Out The Scat Pack Widebody takes the already powerful 392 Challenger and adds the aggressive wide-fender appearance along with performance-oriented chassis upgrades designed to better handle the V8's power. The Frostbite exterior makes this particular example even more striking, while its low mileage, dry-climate history, premium interior packages, and relatively light previous damage create a compelling combination for an enthusiast who understands rebuilt-title vehicles. Pricing Disclosure A \$1,295 dealer preparation package including the CarChief Vehicle Locating System will be added to the purchase price. This vehicle carries a State Certified Rebuilt Title following a previous light left-front impact involving the wheel, fender, and bumper area. There was no structural damage and no airbag deployment. The vehicle has since been repaired and completed the required state inspection and certification process. For buyers comfortable with its fully disclosed title history, this is an opportunity to own a low-mileage, rust-free Arizona Scat Pack Widebody at substantial savings compared with many comparable clean-title examples.
