Dealer notes

1985 Kawasaki KLT 250 Classic Antique 3-Wheeler. (Several Available) This unit is from a private collection and operates great. It was one of a very limited number of these machines owned by a Shriners organization and used exclusively in parades. From what we know, there were a total of eight, and we currently have seven of them! More than likely, this unit has never seen anything other than asphalt. It features the twist-lock rear differential, proper era-correct tires, optional headlight guard, rear tow-hitch ball mount, front and rear racks, and a safety lanyard kill switch that has been added. Hands down, this group of bikes represents some of the cleanest, most undamaged units we have ever found for a collection. Watch the YouTube video closely, as we even point out that the exhaust is not rusty or covered with mud. This particular unit has been professionally gone through and serviced, including a carburetor adjustment, and the fuel tank system“which is a common failure point on these”remains solid. The electric fuel pump also works properly. This unit could still be ridden and enjoyed as it was originally intended, or it would make an amazing addition to any vintage powersports collection, especially with its bright Kawasaki green finish. Please watch the full, detailed walk-around video for an in-depth look at this unit. We will be posting additional machines from this collection very soon, including Honda, Suzuki, Yamaha, Kawasaki, ATC, ATV, 3-wheelers, 4-wheelers, and more.
