Dealer notes

The 2016 Honda Odyssey Touring arrives with a documented service history and personal-use background, which tells you this minivan spent its life being cared for rather than run into the ground. The Touring trim sits near the top of the Odyssey lineup, and the 3.5L i-VTEC V6 delivering 248 horsepower pairs with a smooth automatic transmission to give this family hauler the kind of confident, unhurried power that makes merging with a full cabin feel completely uneventful. Crystal Black Pearl over a Truffle interior is a combination that photographs beautifully and still looks genuinely upscale, which matters when your family vehicle also needs to feel like yours. Slide the power doors open on all four passenger entries and the Odyssey Touring goes to work immediately. The rear entertainment system with dual LCD monitors and two wireless headphones turns long drives into quiet ones, which any parent will tell you is worth more than almost any other feature on this list. Tri-zone climate control with rear A/C keeps every row comfortable, while the express open/close sliding sunroof, four seatback storage pockets, a 120V household power outlet, heated power-folding mirrors, and deep tinted glass turn this cabin into a space the whole family genuinely enjoys, not just tolerates. A hard disk drive media storage system and the included tent option even open the door to family adventures well beyond the school run. Honda's reputation for building minivans that go the distance is well earned, and a documented-service, personal-use Odyssey Touring at this mileage and this price point represents exactly the kind of low-risk, high-value purchase that experienced family-vehicle shoppers recognize immediately. The full complement of active safety features and Honda's long-term reliability track record mean this Odyssey is built to keep up with your family for years, not just get you through the next school year. Come see it at Carlux in Waukegan and take the whole crew for a drive across Chicagoland.
