Dealer notes

COMING SOON 1987 Chevrolet K10 Silverado Squarebody Short Bed 4x4 Lifted. This truck is almost ready! It is sitting on 39-inch Super Swamper tires and 14-inch-wide polished Alcoa-style alloy wheels, with dual shocks at each wheel, crossover steering, braided brake hoses, and aluminum differential covers. A freshly installed small-block engine, fuel system, custom exhaust, engine installation, and additional upgrades alone represent over \$25,000 recently spent, with paperwork included. The truck also features power-retractable steps, polyurethane red bushings, a custom-fitted bed cover, double roll bar with KC lights, a very well-finished interior, working dome light, Sniper EFI fuel injection system, and a 4-speed manual transmission. This truck also includes a ton of additional parts to go along with it. It has just been serviced, and the doors have been adjusted so they close perfectly. The rear Blazer-style bumper looks great, and we have brand-new body-side trim ready to install. That is the one last thing we currently have left to wrap up. All of the looks are here, along with a rock-solid, rust-free body and undercarriage. This truck could easily be considered a show truck, but it is also ready to go! Dark-tinted windows, vent visors, and the list just keeps going—“the more you look, the more you see. Price does not include \$0 processing fee
