More information about the 2015 Honda Civic Sedan: For decades, the Civic has offered one of the best compact-car picks for those who want to keep their ownership costs low and plan to keep their cars a long time. The Civic is also one of the roomiest small sedans, with a surprisingly big interior, considering its smallish footprint. Top models can still be appointed with the works--including a navigation system and full leather upholstery--making the Civic feel more like a compact luxury sedan than an affordable commuter. Strengths of this model include roomy interior, available gas/electric hybrid powertrain, improved standard features, responsive driving feel, and Sedan or coupe body styles
