Dealer notes

Our 2000 GMC Yukon is sized right for large families. Its cabin is roomy, it can carry a load of people and a mountain of cargo, and it can pull heavy trailers. Yet it'll fit into a garage more easily than a Suburban or even an Expedition. This Denali comes loaded with features including heated leather seats and a powerful 5.7L V8. That gets you all the comfort and power you're looking for. Everything, inside and out, is Nice with a capital N. Check Out Our Pictures! You know you agree! This Yukon is soon to be your families freshest addition. The Yukon has always been a spacious vehicle that balances comfortable passenger accommodations with above-average cargo room. In addition, it has always used body-on-frame construction, providing it with a fair amount of off-road capability along with a stout foundation for towing. A succession of strong V8's has resulted in impressive trailer ratings over the years, as well as ample acceleration in just about any situation. This GMC is one of the better full-sized SUV's on the market for families who require a roomy, powerful vehicle that doesn't skimp on utility. So- Save this Page and Call for Availability. We Know You Will Enjoy Your Test Drive Towards Ownership!
