### Dealer notes

Few automobiles embody luxury, prestige, and timeless sophistication quite like a Rolls-Royce, and this magnificent 1979 Rolls-Royce Silver Shadow II is an exceptional example of the marque. Showing just over 13,000 original miles, this remarkably preserved Silver Shadow II has been garage kept and presents in superb condition. Its extremely low mileage, elegant factory color combination, and stately presence make it an outstanding automobile for the discerning collector. The exterior is finished in beautiful Silver Sand Metallic (OEM 95.10.179), a refined and sophisticated shade that perfectly complements the unmistakable lines of the Silver Shadow II. The finish is accented by the iconic Rolls-Royce grille, extensive brightwork, traditional Spirit of Ecstasy hood ornament, and the dignified proportions that made this model a symbol of success and distinction around the world. Inside, the automobile is equally impressive. The luxurious Camel interior provides a warm and elegant contrast to the Silver Sand Metallic exterior. Rolls-Royce built these automobiles with an extraordinary attention to detail, creating a passenger compartment designed around comfort, craftsmanship, and refinement rather than compromise. Equipped with an automatic transmission, the Silver Shadow II was engineered to deliver the smooth, effortless driving experience for which Rolls-Royce became legendary. With only a little over 13,000 original miles, this is not simply another vintage luxury automobile. It represents an opportunity to acquire an exceptionally low-mileage example of one of Britain's most recognizable and prestigious motorcars.

**Vehicle Highlights**
