### Dealer notes

History and History! This is America's Pony Car and it is the only one that has been popular to be made every year. That popularity comes from you the buyer... From 1964 through today this is as American as apple pie and baseball. Did you know that even Corvette missed a year? Yep, they missed 1983 making changes to the car but the Ford Mustang kept America going and going with the rumble of it's powerful engine and style that can't be matched. The engine in this hot Mustang is a 3.8L, V6, rated at 193 horsepower. The stance is wide and low and you will notice yourself turn heads just as you drive by. So if you are young or old, you can get a thrill just by driving this American classic. Big-time Performance That You Can Afford! Save this Page and Call for Availability.
