Dealer notes

The 2016 Chevrolet Traverse LT 2LT 2016 AWD is not here to play it safe--it's built for drivers who need real space, real capability, and a presence that actually means something on the road. This is a full-size SUV that delivers power, comfort, and versatility in one complete package, without the inflated price tag of something new.
Under the hood sits a proven 3.6L V6 engine that brings serious performance to the table. It's smooth when you want it to be, aggressive when you need it to be, and strong enough to handle daily driving, highway cruising, and fully loaded road trips without hesitation. Paired with All-Wheel Drive, this Traverse gives you the confidence to drive in rain, rough conditions, or long-distance travel without second guessing your vehicle. It grips the road, stays planted, and moves with authority.
Step inside and you immediately feel the upgrade. This isn't a stripped-down SUV--this is the LT 2LT trim, meaning it comes fully equipped with the features people actually want. Premium leather seating wraps the cabin, giving it a refined, upscale feel, while the power sunroof opens everything up for a more open, elevated driving experience. Built-in navigation keeps you on track without relying on your phone, and the intuitive layout of the controls puts everything right where it should be.
Space is where this Traverse separates itself. With true 3rd-row seating, you're not just getting extra seats--you're getting real usability. Whether it's family, friends, or extra cargo, this SUV adapts to your life. Fold the seats down and you've got massive storage. Keep them up and you've got room for everyone. It's designed to handle both without compromise.
With 111,464 miles, this vehicle has already proven its reliability--and it's ready to keep going. These engines are known for durability, and this Traverse still has plenty of life left to give. It's the smart buy for someone who wants capability and features without stepping into a high monthly payment.
Visually, it carries that bold Chevrolet design--strong lines, wide stance, and a look that says it's ready for anything. It doesn't blend into traffic. It stands out, exactly the way a full-size SUV should.
Bottom line--this isn't just transportation. This is a vehicle built to handle real life. Power when you need it. Space when it matters. Features that make every drive better.
If you're looking for an SUV that can do it all--and still look good doing it--this 2016 Traverse LT 2LT AWD is the one. Price does not include \$699 processing fee
