Dealer notes

We know what you're thinking. "130,763 miles? Was it used to commute between the moon and Bridgeport?" Close. It was a rental. This car has seen more vacations than a travel agent and has survived more "off-road" shortcuts than a Jeep-even though it's definitely just front-wheel drive. At Ohio Motor Group in Bridgeport, we're not just selling you a car; we're selling you a seasoned veteran of the highway wars. Why This Malibu is the Ultimate Survivor: The "Proving Grounds" History: Most cars are babied by one owner. This one was "tested" by hundreds of people who followed the golden rule: "Nothing handles better than a rental". Built for Comfort (and Speed Bumps): This LT trim comes with an 8-way power driver's seat so you can find the perfect position to ignore the GPS judging your life choices. Fuel Efficiency for the "Full Tank Fantasy": The 1.5L Turbo engine gets an impressive 36 MPG highway. That means you can drive past the gas station almost as fast as the previous renters drove past the "Return with Full Tank" signs. Feature-Packed: Heated Front Seats: For those cold Ohio mornings when the only thing warmer than your seat is the engine after a 400-mile road trip. Remote Engine Start: Start the car from your house so it's warm before you even think about the commute. Backup Camera: Standard, because even rental drivers (eventually) need to see what they just hit. Visit Us at Ohio Motor Group We believe car buying should be easier than returning
