Dealer notes

1-Owner 2020 Tesla Model X Long Range, a groundbreaking all-electric SUV that redefines what a family vehicle can be — combining jaw-dropping performance, cutting-edge technology, and everyday practicality in one bold package. Powered by Tesla's proven dual-motor all-wheel-drive system, the Model X Long Range delivers instant, silent torque to all four wheels — no revving, no waiting. With an EPA-estimated range exceeding 350 miles on a single charge, this is an SUV that handles school pickups and road trips with equal confidence. Supercharger compatibility means you're never far from a fast top-up, and Level 2 home charging keeps it ready every morning. Built around Tesla's comprehensive suite of active safety systems, the Model X puts peace of mind at the center of every drive. Standard Autopilot assists with steering, acceleration, and braking on the highway, while automatic emergency braking, blind-spot monitoring, and collision avoidance work quietly in the background. With a 5-star NHTSA safety rating and one of the lowest rollover risks of any SUV on the road, the Model X is one of the safest vehicles you can put your family in. Step inside and the 17-inch touchscreen commands everything — navigation, climate, media, heated front and generous legroom throughout. The panoramic windshield stretches overhead, flooding the cabin with light and sky, while the iconic Falcon Wing rear doors make loading passengers effortless — even in the tightest parking spots.
