Dealer notes

Remember the early 2000s? Back when the Chevrolet TrailBlazer was a glorious, gas-guzzling living room on wheels powered by a heavy inline-six that got twelve miles per gallon if you were driving downhill with a tailwind? If you miss the days of floating over potholes like a pontoon boat and playing Tetris just to parallel park, we have some terrible news for you: this 2022 Chevrolet Trailblazer LT AWD at Ohio Motor Group Bridgeport is absolutely nothing like its ancestor. Instead of an interior constructed entirely out of hard, gray Tupperware plastics, this modern 2022 reinvented classic offers a sharp, tech-packed cabin with seamless connectivity and active safety features. And whereas the legacy TrailBlazer required you to take out a second mortgage just to fill up the tank for a weekend trip, this nimble all-wheel-drive machine prefers to just pass the gas pump entirely, offering the kind of fuel efficiency that would make a 2004 mechanic cry tears of confusion. Do not worry, it still keeps the legendary name, but now it actually stops when you hit the brakes and turns when you rotate the steering wheel. It handles Ohio winters with ease thanks to its intelligent AWD system, features a surprisingly spacious cargo layout, and boasts aggressive styling that looks sharp driving down Lincoln Avenue. The best part? While inflation has made everything from groceries to old nostalgia expensive, Ohio Motor Group in Bridgeport has this upgraded, modern 2022 Trailblazer LT AWD
