Dealer notes

1977 Chevrolet K5 Blazer Squarebody 4x4. This truck is the absolute perfect example of patina, originality, and a true blank canvas! The best part? Take a close look at the frame in the pictures and be sure to watch the detailed video. The frame is remarkably clean, and the underside of the cab, body, and tailgate are also in amazing condition. This truck isn\'t hiding anything! It is about as original as you could hope to find, and we have seen Blazers selling for three to four times the price of this one that didn\'t start out in nearly as good of condition. This K5 proudly wears nearly 50 years of dings, dents, and naturally aged paint, while the interior shows its age and will need replacement seat upholstery or seat covers to become a nicely finished driver. The exterior, however, could easily be left just as it is and enjoyed for its honest, original character. Alternatively, this truck would make an incredible foundation for a custom build, with endless possibilities for a lift kit, upgraded wheels and tires, and additional accessories. Whether you want to build a lifted Squarebody, preserve a classic survivor, or simply enjoy it as an old-school hunting vehicle, this Blazer offers tremendous potential. At a fraction of the cost of many new SUVs on the market today, it provides a practical, character-filled alternative that will take you straight back in time. The yellow-and-white two-tone paint, complemented by the yellow pinstripe and inset stainless steel racetrack trim, really sets this truck apart. A classic Squarebody K5 with an honest history, an exceptionally solid foundation, and endless possibilities! Price does not include $0 processing fee
