Dealer notes

The 2010 Ferrari California represents a landmark chapter in the marque's history, combining unmistakable Italian performance with the comfort and versatility of a sophisticated grand tourer. Its power-operated retractable hardtop allows it to transition seamlessly from a refined coupe to an exhilarating open-air sports car, making it one of Ferrari's most usable and accomplished modern classics. Beneath the sculpted hood lies a naturally aspirated 4.3-liter direct-injected V8 producing 453 horsepower, paired with Ferrari's lightning-quick seven-speed dual-clutch transmission. Capable of accelerating from 0–60 mph in approximately four seconds and reaching a top speed of nearly 193 mph, the California delivers breathtaking performance accompanied by the unmistakable soundtrack of a high-revving Ferrari V8. The California was also a model of important firsts for Ferrari: the company's first front-engine V8 road car, first production model with a seven-speed dual-clutch transmission, and first to feature a fully retractable metal roof. Its front-mid-engine configuration, F1-Trac traction-management system and carbon-ceramic brakes provide genuine Ferrari performance, while its comfortable cabin and grand-touring character make it equally suited to spirited drives or extended journeys. This CARFAX-certified four-owner example has no accidents or damage reported or detectable. It has spent its entire life in the western United States, beginning in Washington before moving to the Las Vegas area and later Salt Lake City. Its long-term western provenance and evident careful stewardship have contributed to its impressive condition today. The car is beautifully specified with highly desirable equipment, including: Daytona-style seats Yellow-finished brake calipers Carbon-ceramic braking system Scuderia Ferrari fender shields Power-retractable hardtop Black painted wheels Additional premium Ferrari appointments External Trim: NERO DS 1250 Internal Trim: NERO 8500 (BLACK) Mats: NERO 152 (BLACK) MAGNERIDE DUAL MODE SUSPENSION ELECTRONIC INTERIOR MIRROR HOMELINK FRONT AND REAR PARKING SENSORS SATELLITE RADIO ELECTRIC SEATS IPOD IPOD CONNECTION CARBON FIBER STEERING WHEEL with LED Shift Indicators MAGNERIDE DUAL MODE SUSPENSION ELECTROCR.MIRROR HOMELINK TIRE PRESSURE MEASUREMENT A professionally installed paint-protection film covers the front clip, helping preserve the Ferrari's distinctive finish against chips and other common road wear. Elegant, powerful and remarkably versatile, this Ferrari California offers the rare opportunity to enjoy exotic performance without sacrificing comfort or everyday usability. With its naturally aspirated V8, timeless Pininfarina styling and thoughtfully selected options, it is an exceptional example of one of Ferrari's most significant modern grand tourers.
