Dealer notes

2013 Ford E350 Econoline 16-Foot Box Truck with Liftgate Yes, only 16,000 miles! This Rockport box truck is equipped with a large aluminum drop-down liftgate featuring a 7.5-foot-wide, 4-foot platform and a 2,000-pound (1-ton) capacity, along with a roll-up rear door. It also features walk-through box access, an access code system, and a well-designed commercial body built for functionality. The cab is exceptionally clean and still has the protective clear sticker on the radio. Additional features include keyless remote entry, power windows, power door locks, power towing mirrors, Michelin tires all the way around, and it has been freshly serviced and inspected. This unit is about as close to a new vehicle as you can get, but at a fraction of the price. It is in stock and ready to go with no waiting or production delays. The Rockport body, combined with the aerodynamic front nose by Premier Fiberglass, makes these Forest River commercial vehicles an excellent combination of efficiency, durability, and practicality. With dual rear wheels and stainless steel wheel simulators, this truck is ready to work. Add your company logo and a professional wrap, and you have a moving billboard while also having an extremely capable commercial vehicle. Box trucks equipped with rear liftgate systems are becoming increasingly difficult to find, especially in this condition and mileage. Shipping is available anywhere. Price does not include \$0 processing fee
