Dealer notes

SUPER SUPER RARE 1987 VW Kombi / Microbus from Brazil. Showing only 35K Miles, this "Kombi Lotacao" (or "Capacity") has a rare factory variant offered from 1983-1987 with two separate opening doors on the passenger side for quick easy access to the 2nd and 3rd row of seats. The van seats 9(!) people. It is powered by a typical upright 1600 air-cooled beetle style motor. The paint, glass, seals, upholstery, headliner and all electrics are in excellent condition. Even more interesting is the brazilian-production Type 2 has the bay-window front end, with the split-window rear end including plexiglass corner windows at the rear. Overall a super clean, well kept, preserved example of a van that normally sees heavy use! Please watch the video walkaround for more detail. This van is part of Ross's personal collection and is available to be seen by advance appointment only. Happy to ship nationwide, as well! Clean, dry, solid as you would expect from Brazil. Very cool!
