Dealer notes

4.8ltr EFI V-8 engine, GMC standard 8 lug steel wheels, like new tires all around. This vehicle is equipped with a steel barrier located right behind the seats. This vehicle does ride and drive well. The climate controls are missing from the front console, hence the A/C and heater are not functional. For this type of vehicle a relatively simple repair. The vehicle is completely functional mechanically, it would be ideal for a work truck, with it being a 2500 it has a heavy payload capicity. If this sounds like something you may be interested in, come on in for a closer look. Price does not include $0 processing fee
