Dealer notes

2022 Tesla Model Y Long Range - 110,222 Miles Finished in Pearl White Multi-Coat over white synthetic-leather seating with black cabin accents and white dashboard trim, this Model Y Long Range brings together dual-motor all-wheel drive, a glass roof and a versatile crossover cabin. Its contrasting dark wheels and bright interior give this example a distinctive appearance, while the electric drivetrain keeps the driving experience straightforward. Electric motors at the front and rear deliver power to all four wheels through a single-speed automatic drivetrain, eliminating conventional gear changes. Double-wishbone front suspension, multi-link rear suspension, coil springs, gas-pressurized shock absorbers and a front anti-roll bar work with speed-sensing electric power steering. Regenerative four-wheel disc brakes recover energy during deceleration, with ABS, brake assist and an electric parking brake supporting everyday use. Inside, the cabin features power-adjustable heated front seats, heated rear seats, a heated steering wheel and automatic climate control. A central touchscreen with navigation, Bluetooth audio, a premium audio system and wireless smartphone charging provide everyday convenience. Additional equipment includes an auto-dimming rearview mirror, power-folding heated exterior mirrors, a power liftgate and split-folding rear seatbacks. Safety features include a backup camera, forward collision mitigation, lane-departure warning, stability and traction control and tire-pressure monitoring. For a buyer seeking an all-electric crossover with all-wheel drive and useful cargo flexibility, this Model Y combines a bright white interior, convenient comfort features and the simple response of a dual-motor electric powertrain. VIN: 7SAYGDEE8NF557308. Current mileage: 110,222. Contact Auto 206 Inc. for availability, financing, transportation, trade-in assistance or to schedule a test drive. Driven by Trust. Focused on You.
