### Dealer notes

This 8 Cylinder engine offers you that happy medium, allowing for a good balance of torque, horsepower and reasonably good fuel economy plus enjoy better handling and stopping with the rear wheel drive. The factory built-in navigation system saves you time, fuel and eliminates frustration when traveling at the same time the Jaguar back-up camera is not only a convenience but an important safety option. Parking is much easier and safer with the factory installed parking aid sensors, what's more is it's easy to see why keyless start is a godsend for multitaskers on the go. The panoramic roof makes the interior of this vehicle feel more open and inviting, what's more is the air suspension systems can be driven over a variety of terrains while maintaining a smoother ride and better handling. The convenience of the Hard Disk Media Storage Drive allows you to store music directly to the vehicle, in addition to the rear air-conditioning is always appreciated by rear passengers during hot days. These installed HID headlights have more visibility, which can increase reaction time in an emergency situation, moreover the factory built in HD radio gives you more music, talk shows and news without any monthly subscription fees. The installed Bluetooth adds to comfort, convenience and safety, furthermore the MP3 player is a convenient feature that takes the sound quality to another level. The premium sound system lets you enjoy every note of your favorite album, in addition to the keyless entry feature adds to security and convenience. The installed stability control stabilizes the vehicle during sudden evasive maneuvers at the same time the power folding mirrors are great for high-traffic parking areas. The cruise control gives you better control over your speed, furthermore the woodgrain trim is easy on the eyes. The alarm system is an effective measure to safeguard the belongings in your car, not to mention the heated front seats offer additional comfort when in cold weather by warming the seat quickly. These cooled seats are extremely useful in the summers, in addition to the heated seats in the back add comfort to your passengers on cold days. The cooled rear seats allow your passengers to enjoy the drive as much as the driver on hot summer days, furthermore the memory seat feature makes sure that your perfect seat position is never forgotten. Thanks to the built-in Brake Assist, emergency stopping distances can be shortened, reducing the likelihood of accidents whereas the tire pressure monitoring system keeps an eye on tire inflation continually, for maximum safety in everyday driving situations. The increase in performance from the Dual-Shift transmission delivers a truly exciting driving experience, not to mention these rain sensing wipers turn on as soon as you see drops of water on your windshield. The power windows are definitely a must have option.
