Dealer notes

1989 Chevrolet Suburban Silverado Lifted Squarebody 4x4. This 1989 Chevrolet Suburban Silverado 4x4 captures the true Squarebody spirit with its towering stance and unmistakable classic presence. Lifted approximately 8 inches, it rides on massive 35-inch Super Swamper Bogger tires wrapped around 15x14 custom stretched steel rally wheels, complete with GM center caps and trim rings for a period-correct look. Under the hood, a dependable fuel-injected 5.7L 350 V8 delivers strong performance, while double front shocks, a dual steering stabilizer, and triple rear shocks give it the stability and toughness expected of a lifted Suburban of this caliber. The truck features color-matched molded fender flares, custom-built and paint-matched front and rear bumpers, an aluminum finned front differential cover, third-row seating, front and rear climate control, and a Silverado-grade interior accented by a custom gauge background. This particular unit was not one of our full Davis Offroad custom builds, but it has been thoroughly inspected and serviced for safety and mechanical dependability. As expected with a driver-quality example, there are typical window and lock quirks and some evidence of prior bodywork, but the bright white finish gives it a clean, solid look overall. It's a great platform to enjoy as-is or customize further at an affordable entry point compared to a full six-figure frame-off restoration. Be sure to check out the full walkaround video on the Davis Drives YouTube channel for an in-depth look at this lifted Squarebody Suburban.
