Dealer notes

The 2006 Dodge Magnum R/T AWD is a unique and versatile performance wagon that combines classic HEMI V8 power, all-wheel drive confidence, and plenty of everyday practicality. Powered by a 5.7-liter V8 engine producing 345 horsepower and 375 lb-ft of torque, this Magnum delivers strong acceleration and a muscular driving feel while still offering the space and usefulness of a wagon. Paired with an automatic transmission and all-wheel drive, it provides confident traction and a composed driving experience in a variety of road conditions. With only 86,275 miles, this Magnum stands out as a relatively low-mileage example of a model that has become increasingly uncommon. The R/T trim gives the Magnum a more performance-focused personality, while the long-roof wagon design adds generous cargo space and a distinctive look that still stands apart today. Inside, the cabin offers the comfort and passenger room needed for daily driving, road trips, or weekend use. Combining HEMI V8 performance, all-wheel drive capability, low mileage for its age, and the practicality of a spacious wagon, the 2006 Dodge Magnum R/T AWD is a distinctive and appealing choice for drivers looking for something powerful, useful, and different.
