Dealer notes

Looking for a rock-solid foundation to build or expand your business fleet? This 2019 Ford E-Series Cutaway E-350 SRW 138" WB is the ideal blank canvas. Finished in a professional Oxford White exterior with a durable Medium Flint interior, this single-rear-wheel cutaway chassis is engineered to accommodate a wide variety of commercial upfits. Whether you are looking to install a service utility body, a delivery box, or a specialized work application, this versatile platform provides the legendary dependability and structural integrity that fleet operators have trusted for decades. Under the hood, this commercial workhorse is powered by a robust 6.2L 8 Cylinder engine, delivering the proven horsepower and torque required to haul heavy payloads with confidence. Paired with a geared-for-work 4.56 axle ratio, this E-350 offers exceptional low-end pulling power and starting traction, making it perfect for demanding jobs and stop-and-go routes. The 138" wheelbase combined with the single-rear-wheel (SRW) configuration strikes an optimal balance, providing excellent maneuverability in tight urban spaces without sacrificing the heavy-duty chassis strength your business demands. In addition to its raw capability, this vehicle is equipped with specific features designed to enhance utility, driver comfort, and upfitting convenience. Long highway transits are made easier with the inclusion of cruise control, while the interior cabin aesthetics are completed by a clean B-pillar trim kit. For seamless body installation, the chassis includes integrated frame pucks (isolators) that help cushion the mounting surface and reduce vibration. Complete with a standard license plate bracket, this 2019 Ford E-Series Cutaway E-350 SRW is a highly functional, ready-to-work asset primed to elevate your business's productivity.
