Dealer notes

2018 Chevrolet Colorado Crew Cab ZR2 Lifted Pickup. This truck is the perfect example of a no-expense-spared build with an exceptionally clean history. Starting with a 4-inch BDS suspension lift, it also features additional lift spacers and diesel springs, bringing the total lift height to approximately 6 inches. It sits on 17x9 Black Rhino wheels wrapped in 35-inch all-terrain tires, with a matching full-size spare mounted in the bed. Upgraded 4.11 gears front and rear, along with a Trifecta tune, properly correct the speedometer and maintain cruise control functionality for the larger tire size and gear ratio changes. Additional upgrades include Baja Designs LP4, S1, and Squadron Pro lights, AMP power retractable steps, ceramic-coated window tint, an AEV differential cover, CWF replacement upper control arms with uniball joints, and DSSV Multimatic performance dampening shocks. The interior is exceptionally clean with tasteful custom touches, while the undercarriage is perfectly rust-free. Overall, this Colorado is far above average for its price point in terms of upgrades, condition, and equipment. If you're looking for something with even lower mileage, we also have a very similar 2024 Colorado ZR2 with only 1,000 miles available.
