Dealer24x7 — Vehicle Spec Sheet

2017 Acura NSX

Price: $135,770
Mileage: 29,428 mi
VIN: 19UNC1B07HY000821
Stock #: 000821
Condition: Used
Transmission: Automatic
Exterior colour: White
Interior colour: Red
Body type: Coupe
Fuel economy: — city / — highway MPG
Dealer: Topline Auto Group, Kent, WA 98032
Dealer phone: 425-800-0101

Dealer notes

2017 ACURA NSX | 573 HP TWIN-TURBO HYBRID V6 | SPORT HYBRID SH-AWD | 9-SPEED DCT | WHITE ON RED Topline Auto Group is proud to present this stunning 2017 Acura NSX, finished in an elegant White exterior over a striking Red interior. Representing the modern evolution of one of Japan's most legendary supercars, the second-generation Acura NSX combines breathtaking performance, advanced hybrid technology, and precision engineering in an extraordinary mid-engine design. At the heart of this remarkable machine sits a 3.5-liter twin-turbocharged V6 paired with three electric motors, producing a combined 573 factory horsepower and 476 lb-ft of torque. Power is delivered through a lightning-fast 9-speed dual-clutch transmission and Acura's revolutionary Sport Hybrid Super Handling All-Wheel Drive (SH-AWD) system. Unlike conventional supercars, the NSX utilizes its advanced hybrid architecture to deliver immediate electric torque, exceptional throttle response, and sophisticated torque-vectoring capability. The result is exhilarating acceleration, remarkable cornering precision, and outstanding driver confidence. Capable of accelerating from 0–60 mph in approximately 3 seconds under favorable test conditions, the NSX delivers performance worthy of its legendary nameplate while maintaining impressive everyday usability. This particular example stands out with its sophisticated White exterior and contrasting Red interior, creating a striking combination that perfectly complements the NSX's exotic mid-engine proportions. The exterior features a low, wide stance, sculpted aerodynamic bodywork, distinctive side air intakes, aggressive front fascia, and signature LED lighting. Every detail reflects Acura's commitment to combining advanced engineering with purposeful supercar design. Inside, the Red cabin creates a dramatic and luxurious environment with supportive sport seating, premium materials, and a driver-focused cockpit designed around the connection between driver and machine. The NSX's advanced Integrated Dynamics System offers four selectable driving modes — Quiet, Sport, Sport , and Track — allowing the vehicle's throttle response, steering, suspension, transmission, and hybrid powertrain characteristics to adapt to different driving conditions. Additional performance highlights include an adaptive magnetorheological suspension system, sophisticated all-wheel-drive torque management, and a lightweight aluminum-intensive multi-material space frame. With its extraordinary hybrid powertrain, exhilarating twin-turbocharged V6 performance, advanced SH-AWD technology, distinctive color combination, and legendary NSX heritage, this Acura represents an exceptional blend of exotic performance, innovation, and everyday refinement.
