Dealer notes

Pelsue Verizon Cable Splicing Mobile Office Trailer. This unique mobile office trailer is equipped with an Onan Commercial Mobile Power 5500 generator, heating and air conditioning system, built-in cabinets, power strips, multiple electrical outlets, a strobe light system, and several other features. Offering approximately 9 feet of interior space, this unit is constructed with a combination of fiberglass and aluminum, meaning you won\'t have to worry about rust. It also appears to weigh less than 1,000 pounds, making it easy to transport. Please note that the generator appears to be inoperable. We have not thoroughly inspected or tested it, but it does not appear to be functioning. This unit would make an excellent off-grid camper conversion, roadside maintenance station, mobile workshop, or specialty utility trailer. A unique setup with plenty of potential for someone looking for a lightweight, versatile mobile space! Price does not include $0 processing fee
