Dealer notes

2022 Toyota GR86 Premium Purpose-built and extensively upgraded, this 2022 Toyota GR86 Premium combines the lightweight, rear-wheel-drive GR86 platform with a Tomioka Racing turbo system, E85 capability, upgraded cooling, suspension, braking, and a paint-matched Yao87 body kit. The build is finished with three-piece Work Meister S1 wheels and a long list of supporting modifications. The Tomioka Racing turbo setup transforms the FA24 platform while the upgraded fuel system and EcuTek flex-fuel tuning provide the supporting hardware for the forced-induction setup. Jackson Racing cooling upgrades, BC Racing coilovers, Cusco suspension components, upgraded StopTech brakes, and the Tomei titanium exhaust make this a comprehensive street-performance build rather than a car with a handful of bolt-ons. The paint-matched Yao87 body kit, clear tail lights, lowered stance, and genuine three-piece Work Meister S1 wheels complete the look while maintaining a cohesive, high-end appearance. A unique opportunity for someone looking for an extensively modified GR86 without having to source, install, and tune the individual components themselves. By appointment only. Financing available. Trade-ins welcome. Nationwide shipping available.
