Dealer notes

Chevrolet Suburban Square Body 4x4 Choo Choo Custom. This fuel-injected 5.7L Choo Choo Customs conversion Suburban was parked approximately 25 years ago, as you can tell from the inspection date still on the windshield. We were hoping to revive it, but either the engine was locked up prior to sitting or has since locked up from the extended period of storage. We do not know for certain, but knowing how solid these motors typically are, we feel something likely happened during the years of sitting. This unit is actually reasonably solid other than some rust behind the rear tires and in the rocker panel areas. The interior is still very complete, although the windshield is cracked. It features the full-length running boards, Bravada-style wheels, and custom painted stripe package. This would make an amazing project vehicle or could easily be brought back into service as a daily driver. Unfortunately, with our overwhelming current schedule, this was going to be part of our YouTube fixer-upper series of Square Body trucks and SUVs, but we simply do not have the time to dedicate to it the way we would like.
