Dealer notes

Imported Squarebody Carryall Suburban. This unit is properly titled in Virginia and is extremely strange and rare, making it a major conversation piece. Every video we post about this unit goes extremely viral. It would make an excellent content vehicle for someone, even if you're not in the truck scene. It runs, drives, and operates as it should. It has been sitting for a period of time, but it currently operates at very acceptable levels. It would make an excellent four-wheel-drive conversion or lowered unit. It is equipped with a 350 V8, manual transmission, and air conditioning. The clutch release is high, but it still engages properly and does not slip. This truck has so many directions it could go, but we feel it would be better to pass it along to an end user, even though it could become an amazing addition to our collection of some of the hottest and rarest Squarebody and classic trucks there are. Price does not include \$0 processing fee
