Dealer notes

1980 Chevrolet Squarebody Stepside 4x4 Lifted. This uncommon 1980 Chevrolet Squarebody Stepside 4x4 stands out immediately—not only for being a square-headlight stepside, but also for its period-correct style and rare components. It's lifted approximately 4 inches on 33-inch tires wrapped around extremely hard-to-find 16.5x14 Weld Mountain Crusher wheels, giving it a wide, aggressive stance. Power comes from a dependable small block V8, and the truck features an updated OBS-style seat, old-school Pioneer equalizer, tilt steering column, Flowmaster dual exhaust, upgraded brake hoses, and a factory A/C cab. Additional touches include the Decor package hood, painted-on stripes, bed cover, wood floor bed replacement, fresh carpet kit, and Silverado-style interior trim panels. This truck does still need some finishing touches to reach the level we prefer: the tachometer is inoperable, the A/C is not currently working, the dome light needs attention, and a few minor odds and ends remain. All of these items will be corrected and included in the price, with an estimated timeline provided. Our shop has already serviced and safety-inspected the truck, gone through the suspension, and added several improvements, and we can accommodate additional modifications—taller, shorter, or any customization you prefer. A rare stepside Squarebody with big personality and even bigger potential, ready to be taken to the next level.
