Dealer notes

COMING SOON – STATE CERTIFIED REBUILT TITLE – 2019 Dodge Charger Scat Pack RWD – 80,959 Miles – Aftermarket Widebody Conversion – 6.4L 392 HEMI V8 – TorRed COMING SOON – This vehicle is not yet ready for sale. As of September 18, we are currently completing cosmetic and mechanical work before offering it for purchase. This 2019 Dodge Charger Scat Pack RWD takes the already aggressive look of Dodge's 392-powered performance sedan even further with an aftermarket Widebody conversion and Widebody-style wheels. Finished in bold TorRed Clearcoat over a Black interior, the wider stance completely transforms the appearance of this Charger while retaining the naturally aspirated V8 performance that makes the Scat Pack so desirable. This vehicle was not originally manufactured as a factory Widebody. The Widebody body kit and wheels were added aftermarket, converting the exterior from its original stock configuration. Underneath is the genuine Scat Pack powertrain, featuring the 6.4L 392 HEMI V8 producing approximately 485 horsepower and 475 lb-ft of torque. Vehicle History & Condition This Charger carries a State Certified Rebuilt Title originally issued in 2021 at approximately 34,000 miles following front-end damage. The vehicle was repaired, inspected, certified, and returned to the road. It has since accumulated approximately 47,000 additional miles, bringing the current mileage to 80,959. As of September 18, our team is completing additional cosmetic and mechanical reconditioning before the vehicle is offered for retail sale.

Aftermarket Widebody Conversion One of the most noticeable features of this Charger is its aggressive Widebody conversion. Aftermarket Widebody Body Kit Widebody Fender Flares Widebody-Style Wheels Wider, More Aggressive Stance TorRed Exterior Scat Pack Exterior Styling For complete transparency, this is an aftermarket conversion and not an original factory Widebody Charger. The vehicle began life as a standard Scat Pack and was later fitted with the Widebody-style exterior components and wheels. The conversion gives it the much more aggressive appearance and road presence associated with Dodge's Widebody cars while providing an alternative to the significantly higher cost often associated with factory Widebody examples. Performance & Dynamics Package This is still a genuine R/T Scat Pack, powered by Dodge's legendary naturally aspirated 6.4L 392 HEMI V8. Performance equipment includes: 6.4L 392 HEMI V8 Approximately 485 Horsepower Approximately 475 LB-FT of Torque Rear-Wheel Drive Dynamics Package Performance Braking System Red Brake Calipers Performance-Tuned Suspension Performance Steering Drive Modes Performance Pages Launch Control as equipped Active Performance Exhaust Plus Group & Premium Interior The Black cabin is upgraded by the Plus Group, providing additional comfort and premium appointments without taking away from the performance-focused character of the Scat Pack. Features include, as equipped: Premium Seating Surfaces Heated Front Seats Ventilated Front Seats Heated Steering Wheel Power Driver Seat Dual-Zone Automatic Climate Control Remote Start Keyless Enter 'n Go Premium Interior

Trim Cargo Net Harman Kardon Audio & Technology The Harman Kardon Audio Group provides an upgraded premium sound system for a substantially better listening experience than the standard audio setup. Additional technology includes: Uconnect Touchscreen Infotainment Apple CarPlay Android Auto Bluetooth Connectivity Backup Camera Digital Driver Information Display Steering Wheel Controls USB Connectivity Current Reconditioning Status COMING SOON As of September 18, this Charger is still undergoing our preparation process. We are currently addressing cosmetic and mechanical items before making the vehicle available for retail sale. Final condition and completed reconditioning details will be available once the vehicle is finished. Additional Benefits Genuine Scat Pack 392 HEMI V8 Aftermarket Widebody Conversion Widebody-Style Wheels Dynamics Package Plus Group Harman Kardon Audio CarChief Vehicle Locating System Included OBD Monitoring & Diagnostics Trades Welcome Financing Available Nationwide Shipping Doorstep Delivery We complete over half of our sales out of state, and our team can assist with nationwide purchasing and transportation once the vehicle is ready. Pricing Disclosure A \$1,295 dealer preparation package including the CarChief Vehicle Locating System will be added to the purchase price. This Charger carries a State Certified Rebuilt Title following front-end damage at approximately 34,000 miles in 2021. It was subsequently repaired and certified and has accumulated approximately 47,000 additional miles since that time. The vehicle has also been converted from its original stock exterior configuration using an aftermarket Widebody kit and Widebody-style wheels. It is not a factory Widebody model. As of September 18, this is a COMING SOON vehicle undergoing cosmetic and mechanical reconditioning before being offered for sale. For buyers looking for the aggressive Widebody appearance combined with a genuine 392-powered Scat Pack, this Charger offers a distinctive configuration at an attractive value.
