Dealer notes

2022 Mercedes-Benz Sprinter 2500 4x4 Extended-Length High Roof. Hands down, this is one of the most extensively outfitted, lowest-mileage diesel custom Sprinter 4x4 off-grid camper vans you will find. Built with countless Davis Off-Road custom touches, this Sprinter is equipped with an Agile Offroad premium suspension system featuring upgraded front struts with overload springs and premium rear springs—an expensive upgrade that dramatically improves ride quality, stability, and sway control. Additional exterior upgrades include a Fiamma F45S awning, full-length roof rack, LED lighting facing every direction, Black Rhino alloy wheels wrapped in Cooper all-terrain tires with a matching spare, a hidden Warn front recovery winch with brush guard, LPG Pro high-intensity auxiliary lights, an access ladder, and full-length Owl Vans side steps. Designed for true off-grid adventures, this van features an onboard SR diesel heater, a 46-gallon fuel tank, a fully integrated air conditioning system that operates on solar or shore power, four onboard lithium batteries along with two auxiliary batteries, a 40-gallon fresh water tank, a 20-gallon gray water tank, a hot water system, shower system, rear tow hitch assembly, and a professionally wired power distribution system with circuit breakers. The custom cabinetry provides exceptional craftsmanship along with storage galore, making this Sprinter as practical as it is luxurious. From top to bottom, inside and out, every creature comfort and quality detail was carefully planned and executed. Anyone familiar with these builds understands the amount of time, engineering, and expense required to create a van of this caliber. Finding one with such low mileage, a perfect one-owner history, and this level of equipment is extremely difficult. This is an exceptionally impressive Sprinter that is ready for its next adventure without the wait or expense of building one yourself. Price does not include \$0 processing fee
