It is paired with a 6-speed automatic transmission and four-wheel drive Raptor-Specific Features The 2011 SVT Raptor was Ford's high-performance off-road version of the F-150. It came with 4WD as standard, specialized suspension, and off-road-oriented tires. The 6.2L V8 is the key engine for this 2011 configuration, producing about 411 hp. The Raptor's suspension and 4WD system were designed specifically for high-speed off-road driving rather than being simply an appearance package.
