Dealer notes

Meet the Black 2023 Chevrolet Suburban SUV that shows up dressed to impress and ready to do the heavy lifting. Under the hood is a potent 6.2L EcoTec3 V8 gas engine (yes, a proper V8) that blends muscle with smart efficiency thanks to Dynamic Fuel Management, direct injection, and automatic stop/start when you want it. Tap the push-button start, grab the heated steering wheel, and you're off with confident power that feels just as at home merging onto the highway as it does heading out of town. When the weather turns or the road gets unpredictable, 4WD with a 2-speed electronic active transfer case and a mechanical limited-slip differential helps keep traction drama-free, while Hill Descent Control adds extra confidence on steep grades. Trailer sway control, Hitch Guidance, and trailering equipment make bringing the toys along feel refreshingly straightforward. Inside, it's built for real life: heated second-row outboard seats, a power-folding third row, a clever power-sliding center console, and a hands-free power liftgate that's ready when your arms aren't. The Bose 10-speaker surround system sets the mood, and the 12 driver display plus 15 head-up display keep information right where you want it. A CARFAX report is available for added peace of mind. At Montage Motors LLC quality is never compromised we only sell hand picked high quality used cars trucks & SUV's.
