Powered by dual electric motors producing approximately 417 horsepower and 485 lb-ft of torque, this Model S delivers instant acceleration, smooth power delivery, and the quiet driving experience Tesla is known for. Its automatic transmission and all-wheel drive system provide confident traction and composed handling for both daily commuting and highway travel. With 155,095 miles, this Model S continues to offer the innovation, performance, and practicality that helped establish Tesla as a leader in the electric vehicle market. The sleek four-door hatchback design gives the Model S an elegant and aerodynamic appearance while providing excellent passenger space and cargo versatility. Inside, the cabin features Tesla's signature modern layout, spacious seating, and technology-focused design. Combining powerful electric performance, all-wheel drive capability, luxury comfort, and the practicality of a hatchback, the 2016 Tesla Model S 90D remains a distinctive and appealing choice for drivers seeking a refined all-electric vehicle.
