Dealer notes

*** Vehicle located in Bergen County, NJ - Zoom Classic Cars proudly presents this beautiful Trans Am. This 1991 Pontiac Firebird Trans Am Convertible is a meticulously restored example of Third-Gen muscle, combining a rare factory color combination with high-end modern upgrades. Showing 114,000 miles, this 305ci V8-powered classic features the highly desirable 5-speed manual transmission, offering an engaging driving experience that few survivors can match. Exterior & Body: The car has undergone a professional full-body restoration and a complete respray in its stunning, factory-correct Hunter Green. The finish is accented by a brand-new tan convertible top and all-new rubber gaskets and weather stripping. A standout custom touch is the integration of Kindig-it Design flush-mount door handles, providing a smooth, "shaved" look while maintaining sophisticated functionality. The exterior lighting is fully sorted, including a replaced center rear brake light and brand-new headlight motors. Interior & Comfort: The cabin is finished in tan leather, offering a striking contrast to the green exterior. The owner has invested heavily in the cockpit, including: Re-cushioned driver's seat for original factory comfort. Reupholstered speed shifter and E-brake. New door panels and a fresh steering wheel. Modern Bluetooth stereo for seamless connectivity. Fully serviced and functioning A/C system and new window motors. Mechanical & Performance This Trans Am has been mechanically overhauled to drive better than it did in 1991. The suspension has been modernized with adjustable coil-overs, allowing the driver to fine-tune ride height and stiffness. Performance is enhanced by a custom exhaust system featuring Borla mufflers for a deep, resonant V8 growl. Recent mechanical replacements and upgrades include: Drivetrain: Rebuilt rear end (stock gear ratio) and new OEM wheel hubs. Fuel System: Brand-new gas tank, sending unit, and fuel pump. Reliability: New starter, battery, driver-side hinges, and fresh tires. Dash pad has a small crack which is the only blemish. This is a turnkey, "OEM Plus" restoration that respects the heritage of the Trans Am while erasing the common flaws of the era. It is equally ready for a weekend car show or a spirited drive on a winding coastal road.
